Facilitated by Okada and Shi

Strategies and Actions:

Upscaling and Extending CASiFiCA and Implementation Science

Follow-up Workshop after Stresa

Linking to IDRiM Decade II enterprise

Linking to post -DRH challenges

17:00-17:30 Conclusion

By Okada, Kameda and Shi

CASiFiCA-DRH Complementary Relationship

- CASiFiCA' Strength
 - field research/education for next generation
 - academic challenge to develop implementation science as complementary science
 - to-be & being-tested practice/policy/model
 - stakeholders' involved testing scheme
 - continuous monitoring over time at each local CASiFiCA
 - cross-monitoring among local CASiFiCAs
 - face-to-face/person-to-person communicative social network worldwide
 - process technology (knowledge) focused
 - built-in metabolization (updating) mechanism of practice/policy/model

- CASiFiCA' Weakness/DRH's Strength
 - small (large)in number
 - lack (plenty) of already tested practice/policy/model
 - lack of (much) focus on IOT and TIK
 - lack of (orienting towards)open digital archiving media of contents developed
- CASiFiCA-DRH Communalilty
 - disaster reduction-oriented knowledge development /accumulation worldwide (Asia as a first step)
