Structure on DRH Web Site

- DRH Data base
- DRH Forum
- DRH Links

Actors on DRH Web Site

Registered users

Manager

Facilitators

people to facilitate DRH Forum

Members

people who have accounts

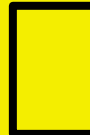

Proposer

people to propose contents

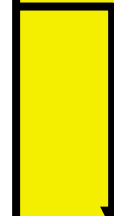

DRH Forum

Non-registered users

General users

people who do not have accounts

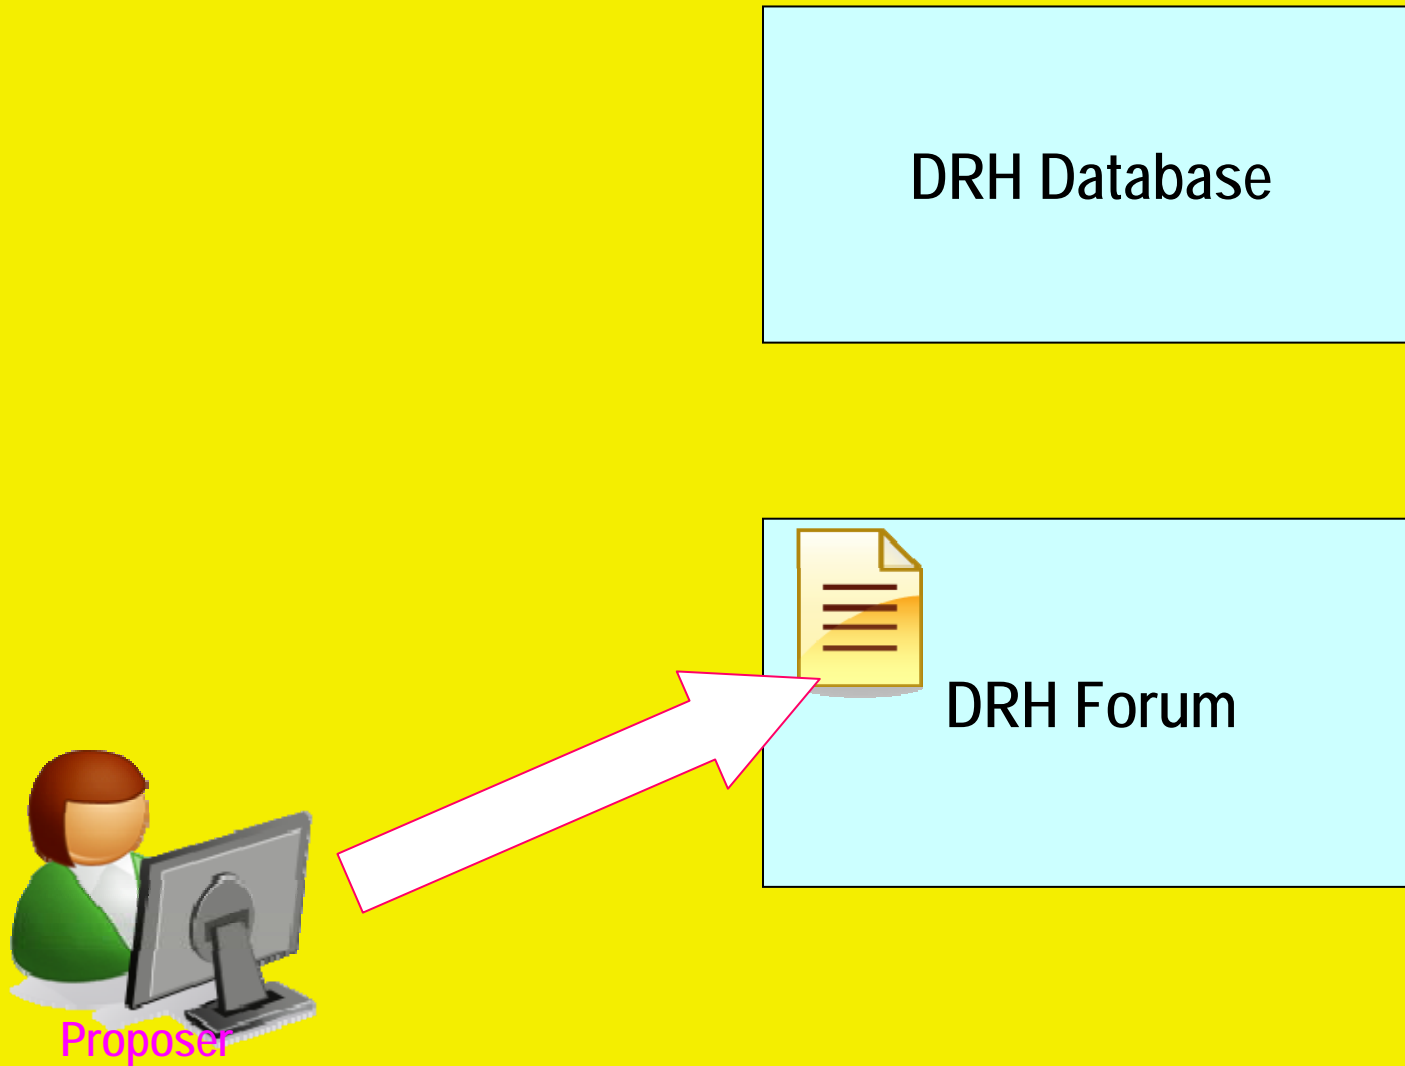

Functions

- Contents proposal
- Discussion by specified user types
- Editing contents by proposer
- Search
- Multi-language

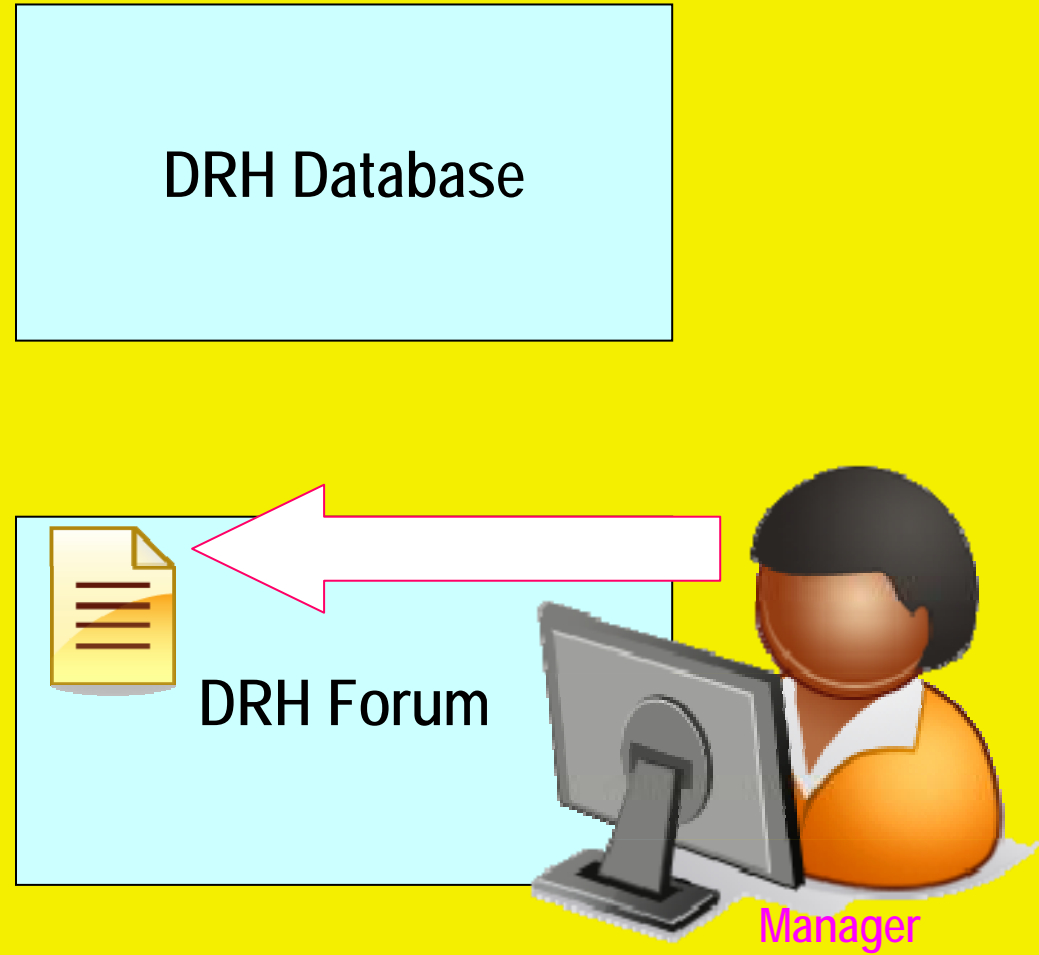

Contents Proposal to Database

- Step 0: Contents proposal
- Step 1: Manager's acceptance of context
- Step 2: Facilitators' acceptance for discussion
- Step 3: Facilitator-proposer discussion
- Step 4: Discussion by all members
- Step 5: Facilitator's closure
- Step 6: Registration in DRH Database

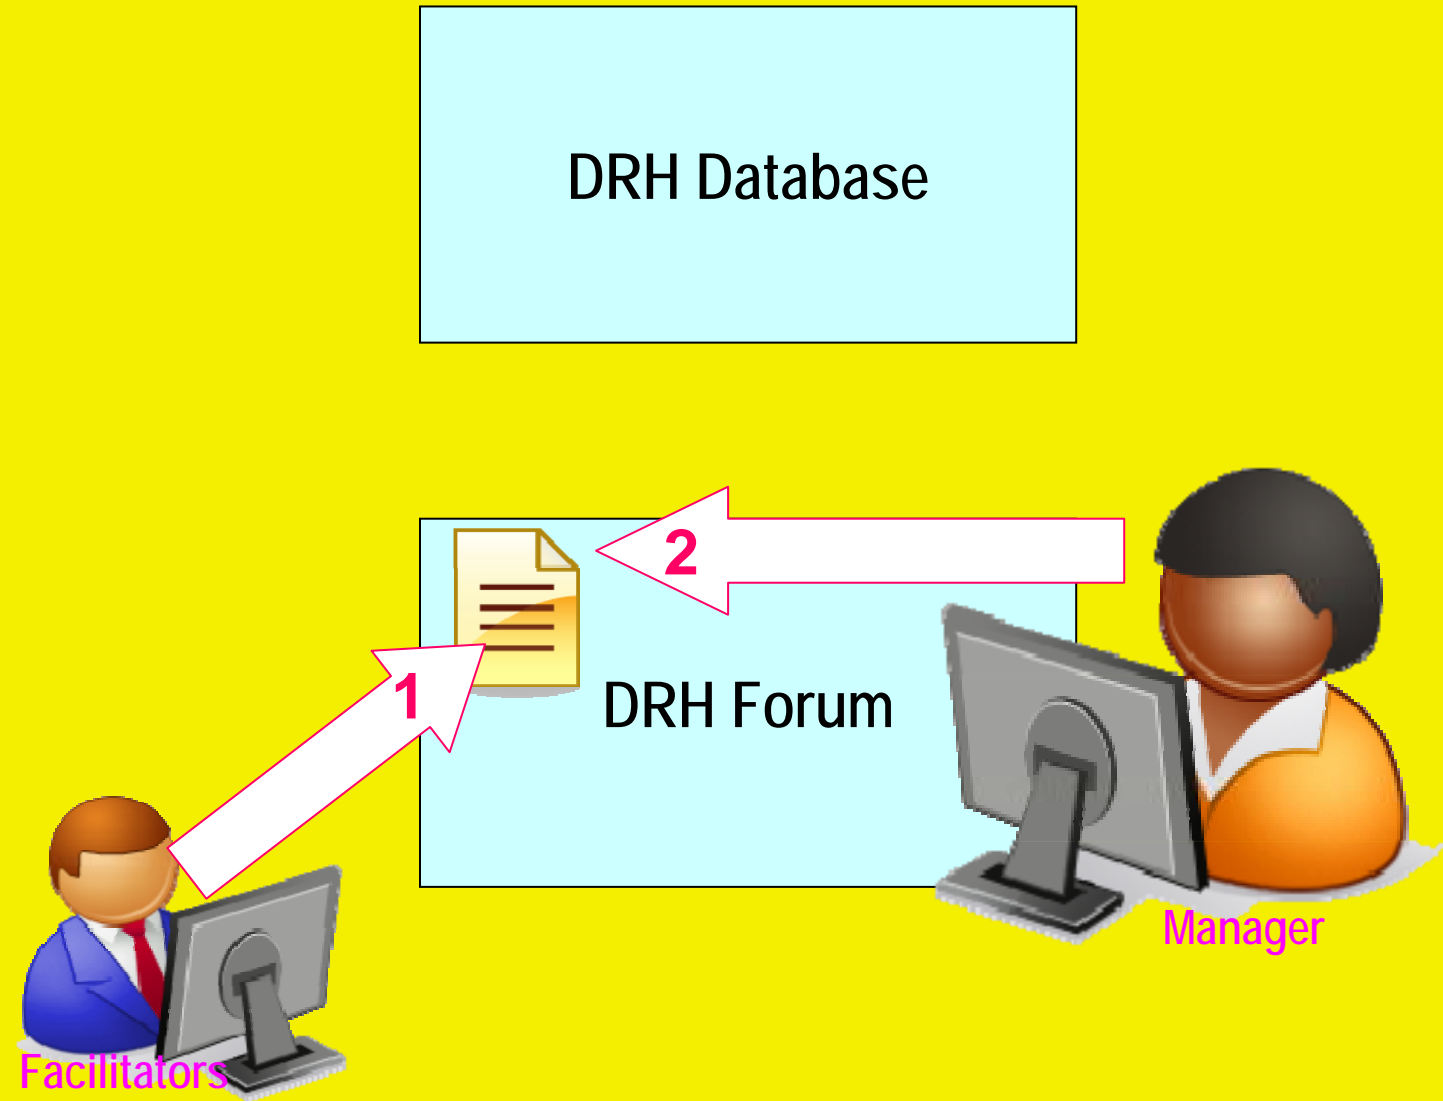

Step 0: Contents proposal

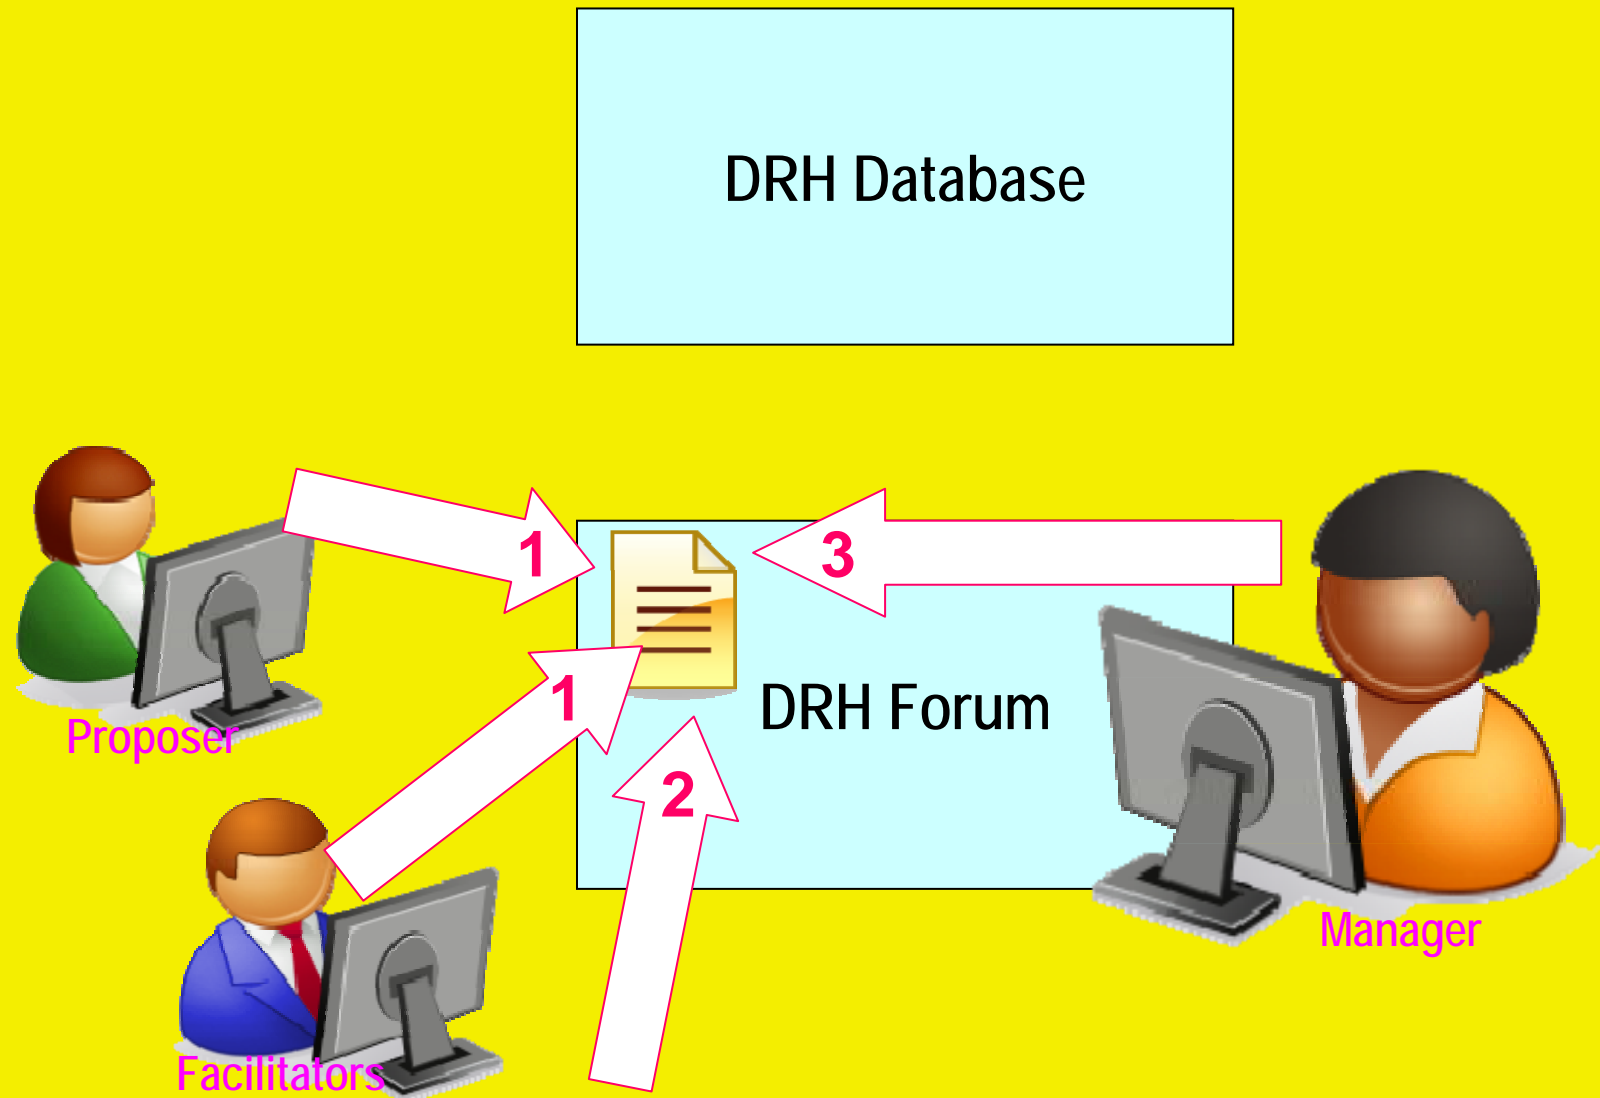

Step 1: Manager's acceptance of context

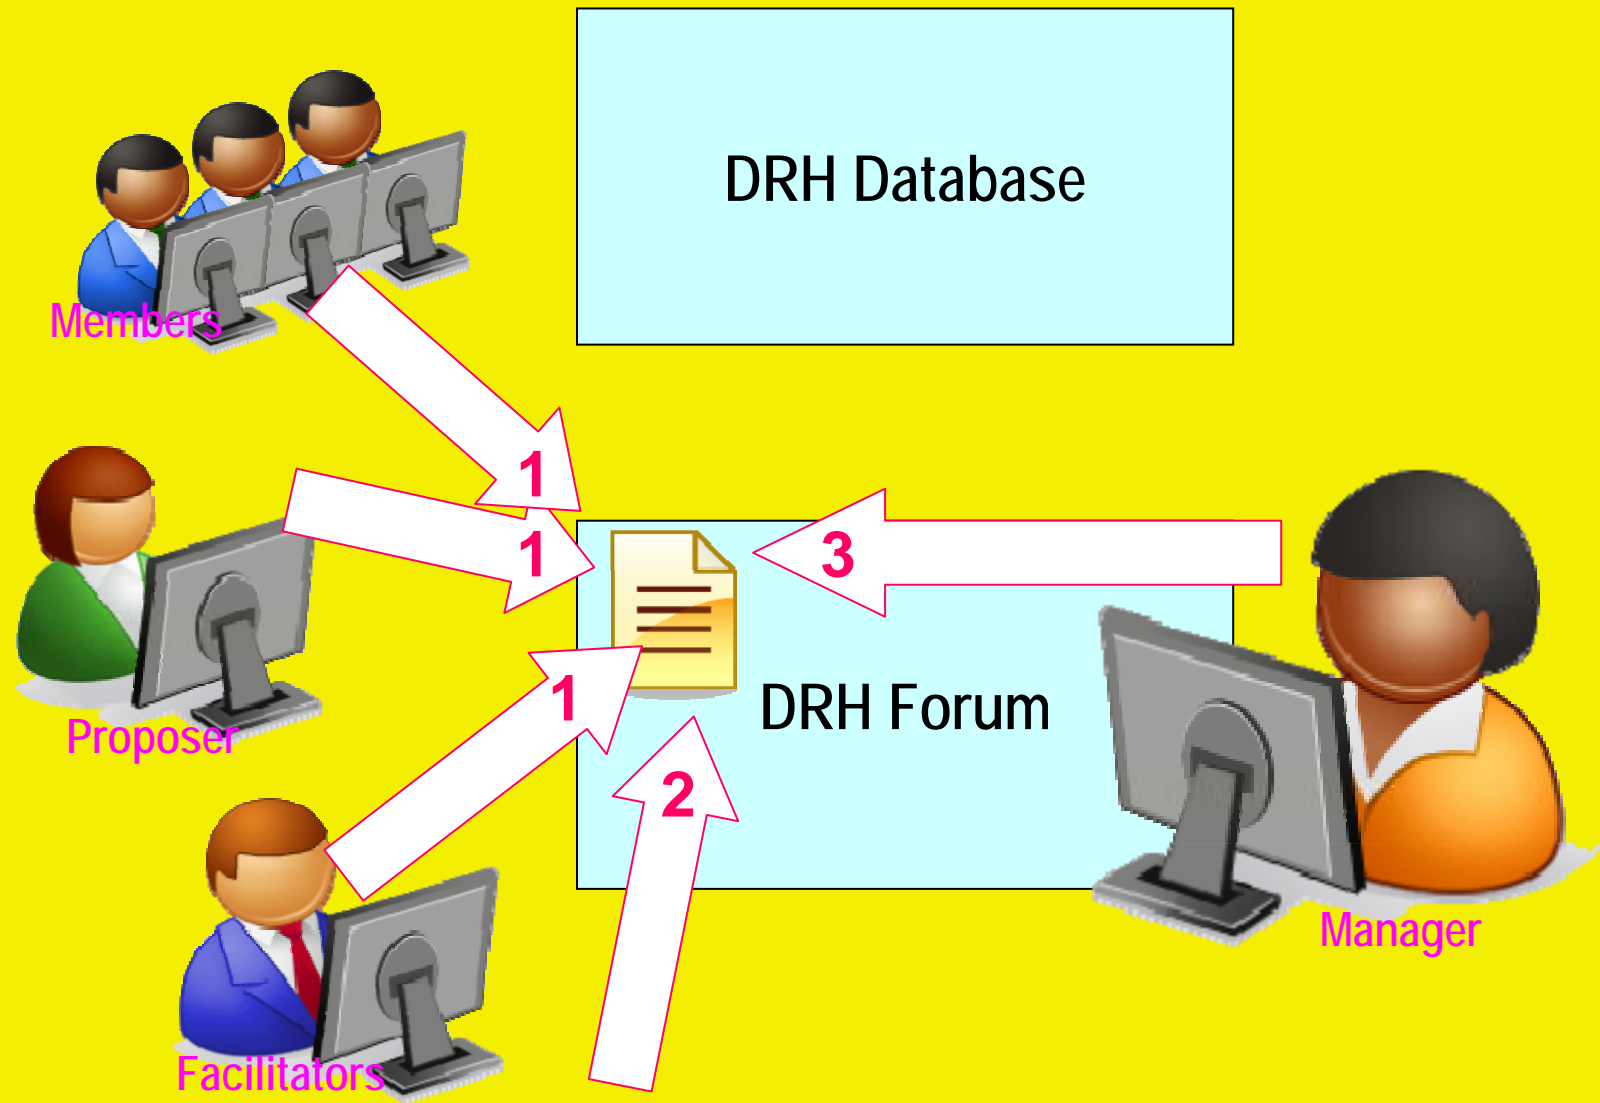

Step 2: Facilitator's acceptance for discussion

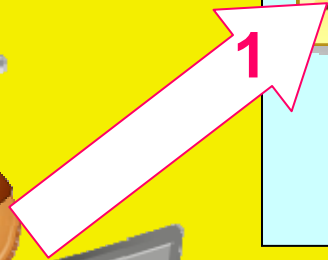

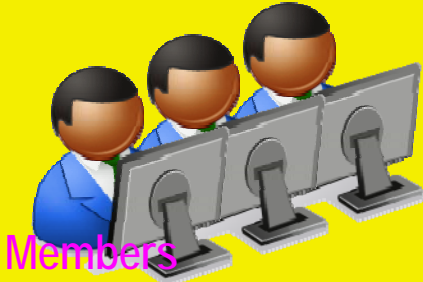

Step 3: Facilitator-proposer discussion

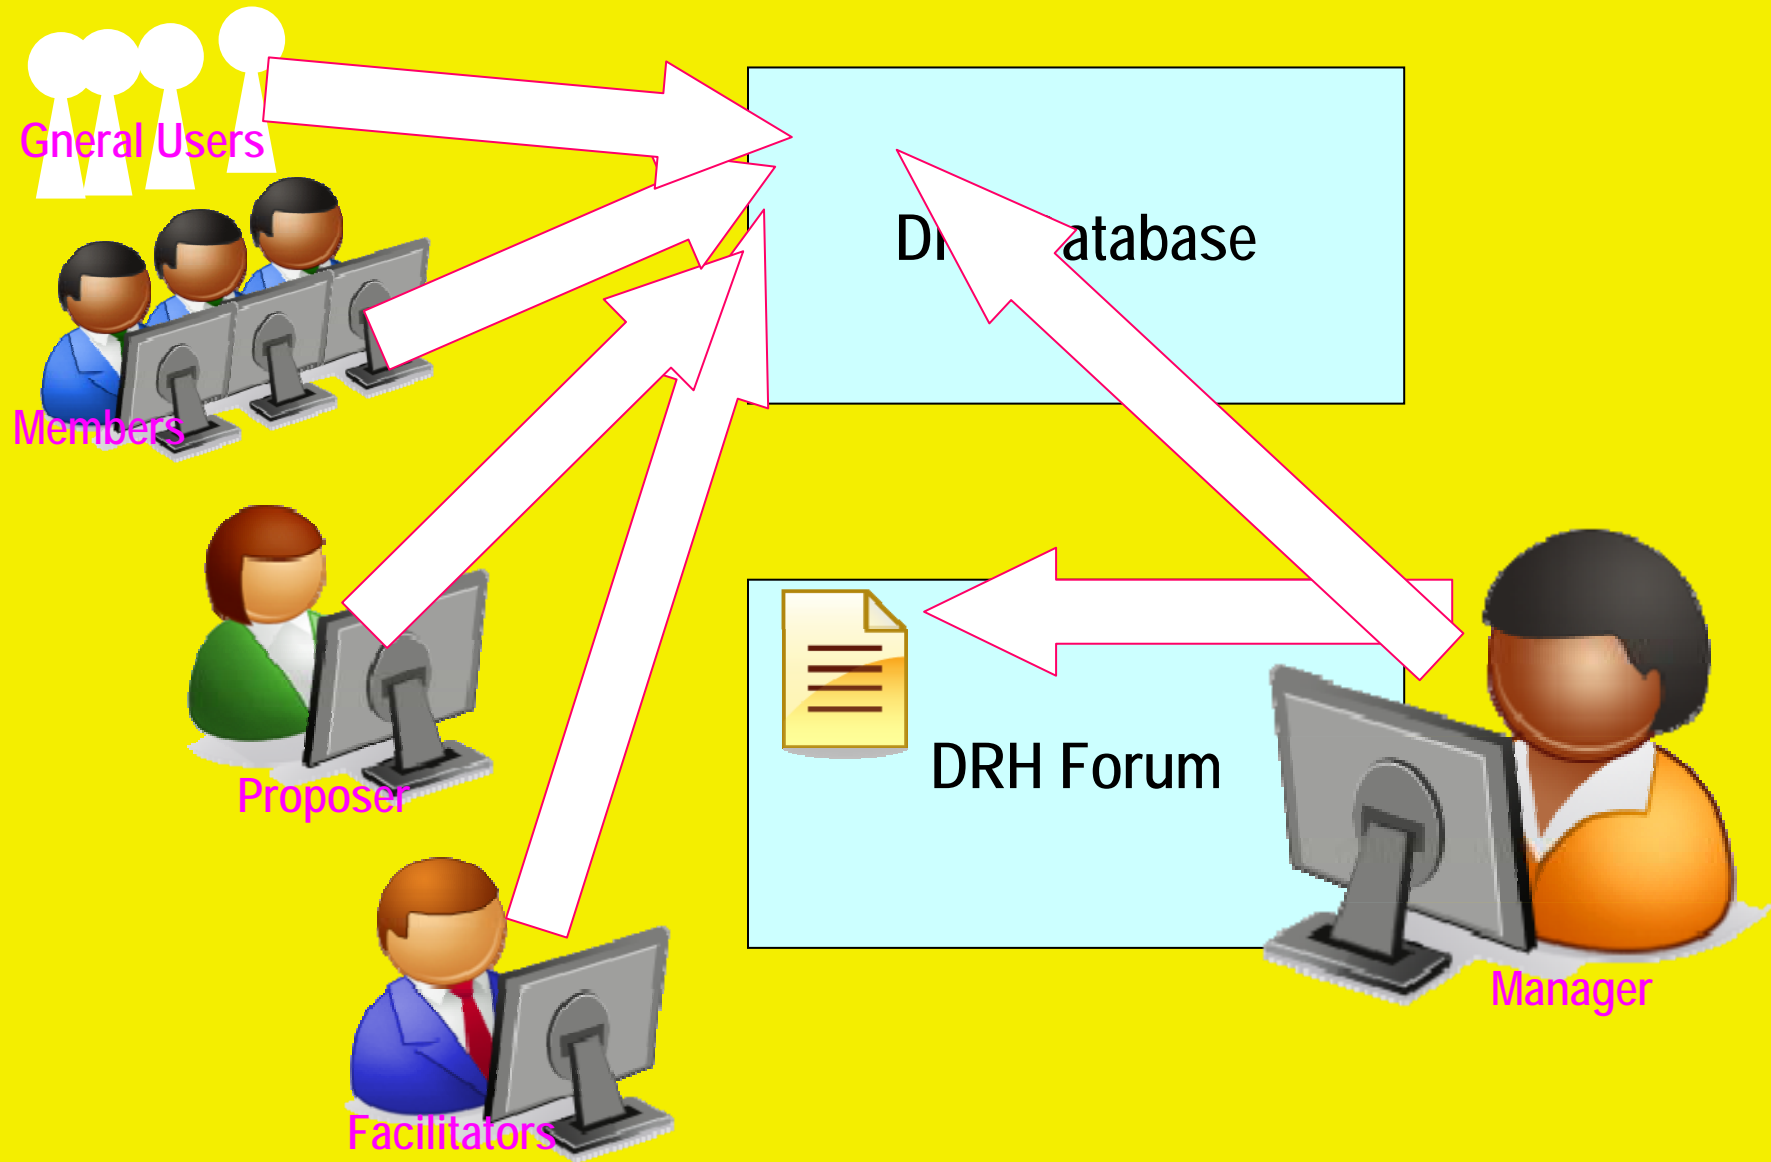

Step 4: Discussion by all members

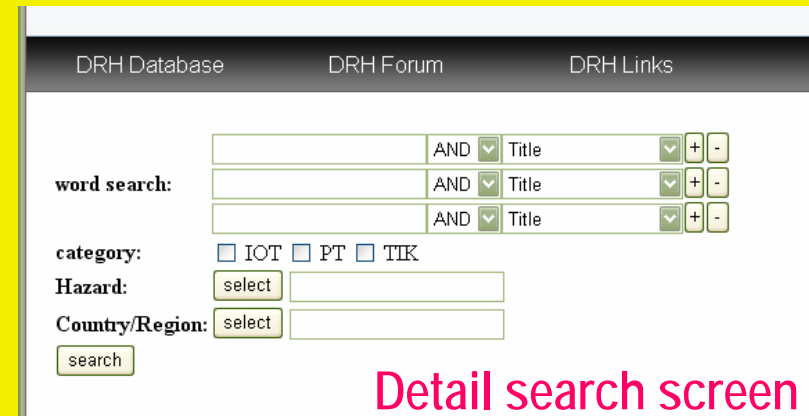

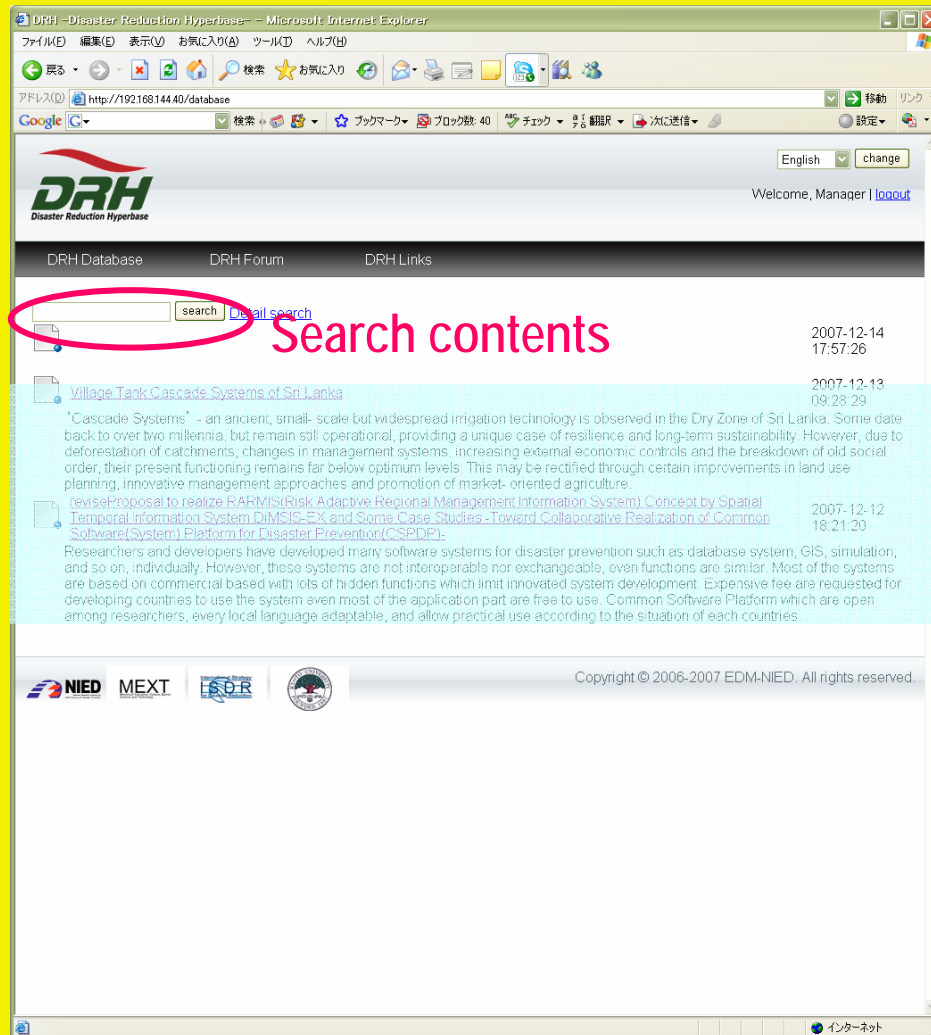

Step 5: Facilitator's closure

Step 6: Registration in DRH Database

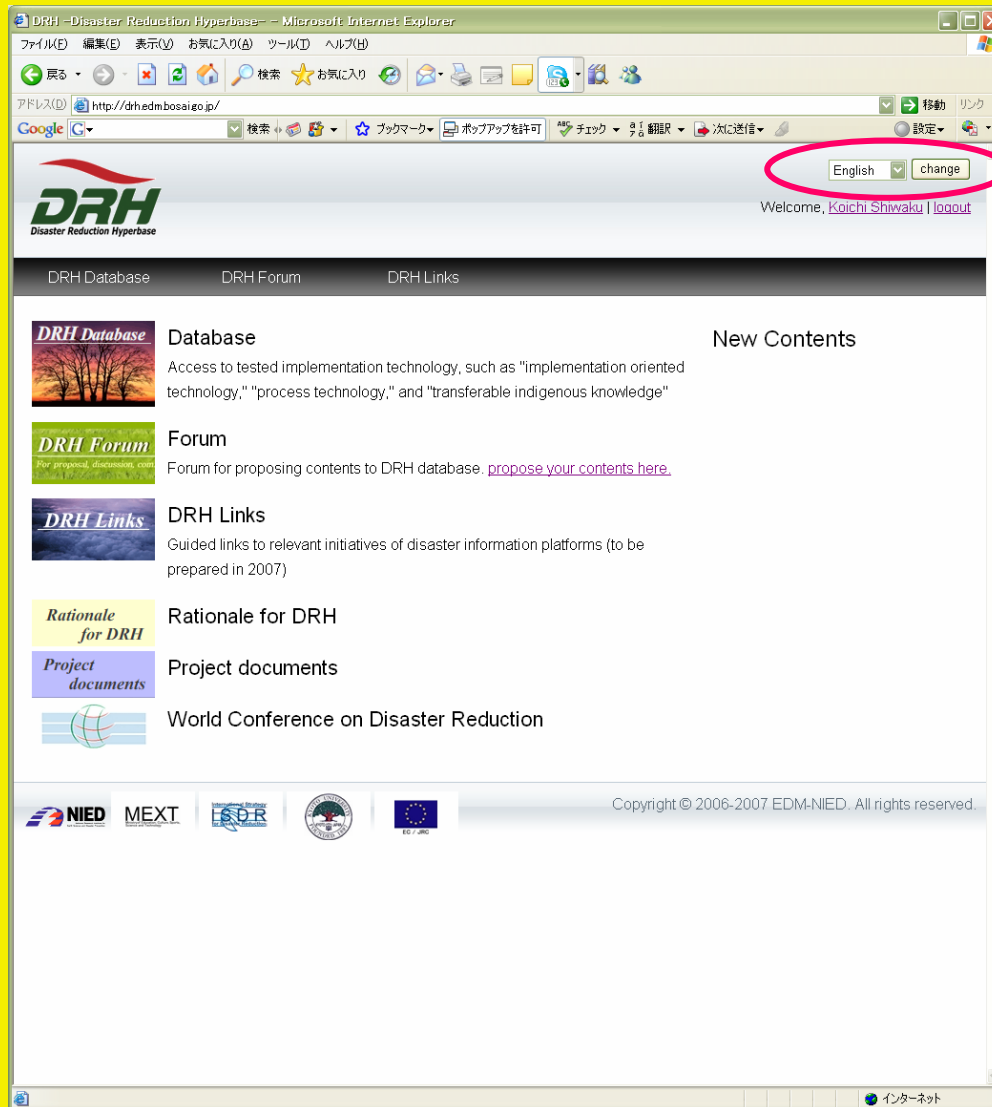

Searching contents

- Word searching (title, keywords, proposer, major significance, and all)
- Word searching (AND, NOT, OR)
- Category
- Hazard
- Country/Region

1. Integration of information platforms

(PreventionWeb, UN-ISDR)

Title of Initiative	PreventionWeb
URL	www.preventionweb.net
Paste logo mark if available	
Contact details	Craig Duncan, Information Management Unit UN International Strategy for Disaster Reduction tel. +41 22 917 8898 e-mail: duncanc@un.org

Description of the initiative
In support of the Hyogo Framework for Action, the ISDR Secretariat is developing an information portal on Disaster Risk Reduction (DRR) called PreventionWeb. The primary purpose is to facilitate the work of professionals involved in disaster risk reduction and promote an understanding of the subject by non-specialists.
PreventionWeb aims to provide a common platform for institutions to connect, exchange experiences and share information on DRR. The system will be designed to allow distributed data entry as well as provide options for content syndication to partner sites.
The site will be updated daily, and contain news, DRR initiatives, event calendars, online discussions, contact directories, policy documents, reference documents, training events, jobs, terminology, country profiles, fact sheets, as well as audio and video content.

2. Information users who practice disaster risk reduction activities

(ADRRN)

Title of Initiative	Asian Disaster Reduction & Response Network (ADRRN)
URL	http://www.adrrn.net
Paste logo mark if available

- DRH Links consists of summary tables of information platform initiatives.
- They are arranged in the following three categories:
 - (1) Integration of information platforms
 - (2) Information users who practice disaster risk reduction activities
 - (3) Information platforms as disaster risk reduction information providers

Things to be improved

Current version is not completed!!

- User-friendly interface
- Easy contents proposal
- Improvement of search function
- -----

Let's see DRH web site!!

インターネット

What is useful for members?

- Member can see and collect technology information to improve their own technology implementation.
- Technologies (works) can be evaluated.
- Members can show their technology in the website through improvement with facilitators and members.
- Members can know (contact to) manager, facilitators, and other members.
