

Discussion or Resolution of
the 2nd Annual Workshop

on

DRH Asian Application

Beijing, 22nd February 2008

Presentation of Three Groups

- Contents Group: **User-Contents provider Interface**
 - How to promote the DRH for contents provider
 - National Focal Point
 - Guidelines/tools to the focal point
 - Different forum and step-by-step process
 - How to elaborate the contents
 - Dialogue between contents provider and users
- Software and Data Group: **User friendly and Attractive**
 - Search issues
 - Impression of the site
 - Submit contents
 - Contacts
- Management Group: **Consortium and quality product**
 - Registered Professional body
 - Need to link with government and/or regional policy bodies
 - Quality control on DRH data

Discussion and Resolution (1)

- Website
 - Needs to be attractive, easy to understand, and user friendly
 - Expert help is required to make the website user friendly through meeting and discussion
 - Expert group meeting is required along with facilitator meeting to make website user friendly

Discussion and Resolution (2)

- Contents
 - Needs to be enriched with wider application to other areas, not restricted to Asia
 - Process technology part needs to be emphasized and needs more clarity

Discussion and Resolution (3)

- Management and Future
 - Country level DRH should be emphasized with specific language focus
 - Local context specific, following the same criteria
 - One or more national focal point(s) to reach out the maximum end users
 - Link to other existing country networks for promotion, contents development and use of DRH database

Discussion and Resolution (4)

- DRH Consortium
 - DRH consortium is established for the promotion and sustainability of future activities of DRH
 - DRH Consortium charter is formulated and approved.
